

Rooted in Jesus

A Christian discipleship course for Africa

Rooted in Jesus provides ordinary African churches—many of which have no access to other resources—with a practical and interactive programme for small groups, aiming to bring people into a deep and fruitful relationship with Jesus Christ.

Uniquely designed for an African context,
it is not translated from material designed for the West.

Invited by bishops, our teams run conferences several times a year to introduce the programme to new dioceses.

Each conference trains **150 leaders**,
enabling up to **3,000 people** to join a discipleship group.

Making disciples who will teach others also

Translated into **44 languages** and used in **80 dioceses** across **16 countries**,
Rooted in Jesus has helped churches to build strong fellowships
of confident Christians who can teach others.

We hear story after story of transformed lives and changed communities.

Every training conference costs **£3,500**

to cover food and accommodation for 150 new leaders,
the cost of printing the course materials,
and a travel grant which enables a local coordinator to keep supporting group leaders

Your gift can help us to make disciples who are
truly rooted in Jesus
